

Electron Microscopy Laboratory

Scale of charges

Valid from 1.9.2025

Fees for external clients

A: Device usage fees

For the use of electron microscopy in service operations, flat-rate usage fees for external clients are charged in the following amount:

Scanning Electron Microscopy	Euro 220,-/hour
Scanning electron microscopy incl. EDXS	Euro 245,-/hour
Focused ion beam, based on TEM	Euro 321,-/hour
High-end TEM investigation	Euro 355,-/hour

B: Sample preparation

For desired preparation methods, rates are charged in the following amount:

Preparation for SEM/TEM with special requirements: Mechanical and electrolytic thinning incl. grinding and ion thinning, ultramicrotomy, light microscopic quality control	Euro 64,-/hour
--	----------------

C: Data preparation

Basic data export is included in the device usage. More extensive evaluation work and data preparation in the form of a report (typ. pdf) are calculated as follows:

Evaluation work and report or presentation preparation	Euro 95,-/hour
--	----------------
